Dear RPS Community,

As we continue to deliver our distance learning program, we would like your feedback on how it is going. We have two quick surveys - one for students and one for parents. Both surveys are in English and Spanish (choose your preferred language at the top of the survey). The results from these surveys will help ensure we are delivering the best distance-learning program possible to students.

- Parent survey
- Student survey

As always, please reach out to us if we can be of support or assistance to you or your family during this time.

Sincerely,

Superintendent Steven Unowsky

P.S. Keep an eye out for our Friday email which will include information about how you can support the class of 2020, our strategic planning process (which is moving to an online format) and more.
